Q2  
[0050] Figures 3A-H illustrate data hierarchy for data stored in the database illustrated in Figure 1. Specifically, the tables, as well as the table interconnectivity, in Figures 3A-H illustrate data and associations of the data stored in the WebAppraisal database. In addition to identifying the specific data stored for each appraisal and appraiser, the tables in Figures 3A-H designate the type of data stored for each category (e.g., numeric, unique identifier, non-variable character) as well as whether the entry can have a null value.
